

Day Care

Day care is an individual and family oriented type of care for children and is offered by the town of Halle (Saale) on the basis of the paragraphs 22 – 24 SGB VIII and paragraphs 6 and 11 Absatz 6 Kinder-förderungsgesetz des Landes Sachsen-Anhalt (KiFöG LSA).

With this type of care up to five children are looked after by a trained person in his or her own household or other facilities. Day care is mainly on offer for children up to the age of three years as an alternative to the service provided in a day care facility.

Parents who opt for day care may either make use of support provided by the Halle authority for children, youths and families or alternatively make use of private means.

The proportional financing through the authority for children, youths and families for a place in day care is bound to the following criteria:

1. The health condition of the child is confirmed by a medical doctor by means of a bill of health stating that the child is not healthy or fit enough to visit a facility.
2. A special family situation whereby day care of care is seen to be appropriate or necessary for the child, or as the case may be:
3. The family, occupational or educational situation makes it necessary that the child is cared for at special times of the day.
4. Proof of registration with a day care facility and proof of rejection.

Contact persons for further information concerning claims of day care can be found at the general social service in the [district centres](#).
